THE WARD-BELMONT SCHOOL

WARD-BELMONT makes no statement which she is not prepared to make real to the earnest, painstaking student. Her catalogues are published to give definite, trustworthy information, and they embody the same fine principles of sincerity, truth, and honor which she earnestly attempts to inculcate in her students.

HISTORICAL SKETCH

Ward-Belmont is a union of Ward Seminary and Belmont College. Ward Seminary was founded in 1865 by William E. Ward, D.D., and Belmont College was founded in 1890 by Misses Ida E. Hood and Susan L. Heron. In June, 1913, the two schools were united on the Belmont campus under the charter name, "The Ward-Belmont School." Ward-Belmont is not forgetful of her past; she honors her founders, she reveres the two parent schools, and points with pride to that long line of graduates and students who have gone out into life's service, and whose happy memories and genuine affection for the old schools now bind them to the new.

A record of long service in a national field constitutes the richest heritage and the real asset with which Ward-Belmont pursues her new and larger life.

NASHVILLE AND ITS ATTRACTIONS

Nashville has an enviable record as an historical, educational, and cultural center.

The chosen location of great universities, professional schools, colleges, and preparatory schools, Nashville has established a far-famed reputation as a center of learning. Ward Seminary and Belmont, through their long and honored careers, have contributed much toward winning for the city of Nashville her merited title of "The Athens of the South." These two schools, in coöperation with Vanderbilt University and George Peabody College for Teach-

ers, have given a distinct charm and atmosphere of culture which makes this city an ideal home for students.

On an imposing eminence the State Capitol stands, an interesting example of classic architecture. In its grounds is the tomb of President James K. Polk. Located at a central point in the Centennial Park is a facsimile of the Parthenon, true in every detail. On one of the many beautiful drives and car lines is Belle Meade, for many years a celebrated stock farm. Twelve miles from Nashville is the Hermitage, the home and burial place of Andrew Jackson, President, statesman and warrior. Not far from the Ward-Belmont campus is the battlefield of Nashville, and near by stretches the scene of the battles of Franklin and Stones River. Within a few hours' ride are Lookout Mountain and Mammoth Cave. Nashville is within easy reach of all the historical points of Tennessee.

In addition to the cultural advantages offered by Nashville through its educational and historical interests, an opportunity is given by the city to hear many of the most famous artists, readers, and lecturers. Nashville thus affords the means for acquiring a most liberal culture.

THE CAMPUS

Ward-Belmont stands in the beautiful hilltop park formerly owned by Belmont College, and to both the grounds and buildings handsome additions have recently been made. The campus, containing thirty acres, is surrounded by one of the best residence sections of Nashville. Embowered in trees and shrubs which represent the artistic planting and cultivation of sixty years, this naturally picturesque park makes a campus of unusual beauty. It is sufficiently removed to give that quiet and seclusion which are conducive to studious habits; yet the railway station, the shopping districts, and the churches of all denominations in the city are easily accessible by car. The site is on the highest elevation in the Vanderbilt University and the Peabody College sections, and is within easy walking distance of either.

CLIMATE AND HEALTH

The bracing atmosphere and temperate climate of Middle Tennessee make Nashville an ideal location for school work. Pupils from more northern States, as well as those

from farther south, find here a school home unexcelled in physical advantages. The mild weather and the inviting campus encourage outdoor sports and games, which have contributed much toward maintaining the phenomenal health record of the school.

Ward-Belmont realizes just how much the health of its students depends on physical conditions, and safeguards their health in every possible way. The buildings are sanitary; the drinking water is filtered, sterilized, cooled, and is supplied in hygienic fountains throughout the buildings; a trained and experienced nurse has charge of a well-ordered infirmary. Though the school has been singularly free from communicable diseases and has never been visited by an epidemic of any kind, yet an isolation hospital is maintained as a guard against such an epidemic. A further precaution is the requirement that a certificate of good health be furnished by every resident student.

Ward-Belmont realizes that in order to reach the best mental as well as physical results, one must have good, nourishing food. Especial care is paid, therefore, to the meals and their preparation. The kitchen and bakery have the latest improvements in steam cooking, gas and electric appliances, and cold storage; the dining hall is commodious and attractive. The menus are supervised by a trained dietitian. A diet table under the supervision of this dietitian is maintained for those whose health requires it.

In addition to the physical safeguards and the abundant supply of wholesome, nutritious food, the regular habits and ordered life of the school, and physical culture scientifically adapted to the student's individual needs, are potent factors in promoting the excellent health record of Ward-Belmont.

BUILDINGS AND EQUIPMENT

The plan of the buildings is that of a quadrangle with one open side. On the north side of this square are located Fidelity, North Front, South Front, and Founders Halls with the drawing rooms, the auditorium, and the dining rooms; on the east, two other residence halls, Pembroke and Heron Hall; and on the south, the Academic Building. In addition to these there are three residence homes—Leftwich Lodge, Hudson Cottage, and Rose Cottage. Other buildings on the campus included in the school plant are the music

practice house, tea house, green-houses, and at a greater distance from the residence halls the isolation hospital and the heating plant. The buildings are handsome and commodious, and are models in their adaptation to school use. They are fitted with the most improved methods of sanitation, heating, lighting, ventilation, and fire escapes.

The Academic Building, in classic colonial architecture, was completed and equipped in 1914 at a cost of $150,000. In this building are the large, well-lighted classrooms, the library, the science laboratories, the expression and art studios, and the administration offices. The library contains about six thousand volumes. Under the care of experienced attendants, it is open at practically all hours. With its well-chosen books of reference, with its reading tables supplied with standard magazines and daily papers, it is an inviting spot to the casual reader and the serious student. This building also contains a white tiled swimming pool, and a gymnasium well equipped with apparatus, showers, dressing rooms, and lockers.

Since the dormitories are entirely separate from the classrooms, they have a quiet, homelike atmosphere. The residence halls are all practically new, freshly furnished, and in their arrangements meet every demand of comfortable and refined home life. There are ample sanitary appointments and baths on every floor, while in Pembroke and Heron Halls, which are arranged in suites, there is a bath between the two rooms of each suite. Each room accommodates only two girls, and is furnished with a rug, bureau, table, chairs, single iron beds, and, with few exceptions, separate closets. All the rooms have outside exposure, with abundant sunlight and fresh air.

Interested parents are requested to visit Ward-Belmont, as only a personal inspection can give an adequate idea of the way in which the comforts of a well-ordered home have been combined with the essentials of a well-equipped school.

WOODY CREST

Instead of Edenwold, the former country club of Ward-Belmont, the school has been fortunate in securing Woody Crest—a fine old estate more accessible than Edenwold.

Woody Crest was built for a home—a hospitable place with privacy assured by its surrounding hundred and forty

acres. It was purchased just as it had been occupied, with the furniture appropriate to a well-appointed home. Its quiet and beautiful location commanding a view of the hills, its wide verandas and spacious reception rooms, make it an ideal country club. There are gardens with masses of roses and peonies, and sloping lawns shaded with great oaks and maples surround the house. The farm is large enough to be of great value in furnishing fresh vegetables, milk and cream to the school household.

FACULTY

While Ward-Belmont has continual pride in her location, buildings, and equipment, yet she is ever conscious of the fact that the real strength of any school must lie in its teaching force. Ward-Belmont spares no expense in selecting her faculty, and in the various departments are men and women of the highest ideals who have been educated in standard colleges and universities of this country and abroad, and who have had successful experience in the classroom. In the literary work, in Music, Art, Expression, Home Economics, and in Physical Education, the same high standards are upheld. Ward-Belmont believes that true education is character building, and selects her faculty with this in mind. That the inspiration from personal touch between teacher and pupil may be kept constantly at the maximum, the school maintains the approximate ratio of one faculty member to ten pupils. Ward-Belmont is characterized by cordial friendship and sympathetic interest in the attitude of the faculty toward the students in all the activities of the school.

HOME LIFE

The President and his family and many of the teachers live in the residence halls, and their presence as constant advisers and sympathetic friends contributes much to that spirit of comradeship and good cheer so evident in the school. Constant appeal is made for sincere coöperation on the part of every student in maintaining wholesome standards of school living on the principle that kindness and confidence are more efficacious than stringent rules. The effect, therefore, is not one of repression, but of self-restraint, resulting in that character development which comes with a growing sense of obligation. Handsome parlors, attrac-

tive corridors, inviting rest rooms on every hall, and the unusual feature of a roof garden for recreation, all attest the care with which the home comforts and pleasures have been anticipated.

SOCIAL CLUBS

Ten clubs with a membership of forty to sixty each are a pleasant feature of the social life of the school. Membership in one of these clubs is expected of every student. They meet formally once a week for social, literary or musical programs, and informally at other times for recreation. A spirit of loyalty in the clubs develops in the students the best qualities, mental and moral as well as social.

RELIGIOUS ACTIVITIES

The Christian homes all over the land are sources from which our students come. Though no sectarianism is lived or taught, every effort is made to stimulate and strengthen the impulse toward Christian life and service. Regular Bible courses form part of the curriculum, and there is an active Young Women's Christian Association in which the members of the faculty coöperate with the students. The Association and the school jointly employ a trained and experienced secretary, who directs the activities of the Y. W. C. A. so that the influences of this organization are made vital in the life of the school. The Sunday School conducted by members of the faculty, systematic Bible training and mission study, daily devotional exercises at chapel, and frequent visits by the pastors of the city, are among the agencies by which the school life is made wholesome and inspiring. The spirit of church loyalty is fostered by requiring each student to attend the church of her choice on Sunday morning.

DRESS AND HOUSEHOLD ARTICLES

Extravagance and extremes in dress are firmly discouraged. Every boarding pupil is required to have as the school uniform a plain tailored suit, either of dark blue or of black. This suit may be purchased before coming to Nashville if a patron so desires. As a part of this uniform are to be worn a suitable blue or black waist without trimmings of any sort, dark walking shoes, and a black hat simply

trimmed without color of any kind. This suit must be used for street and church and on all public occasions. Dinner gowns suffice for evening functions, and elaborate evening gowns are not permitted. No uniform is required during the school day, but the clothing worn should be simple and suitable for school use. All boarding pupils are expected to provide themselves with bath robe, bedroom slippers, laundry bag, hot-water bag, umbrella, raincoat, overshoes, walking shoes of approved design, a comfort, pair of blankets, dresser and washstand scarfs, and one trunk cover. Trunks must be marked with full name and home address. All articles to be sent to the laundry must be clearly marked with the full name of the pupil. An abundant supply of table napkins, towels, sheets, pillowcases, and bedspreads is furnished each student at a reasonable charge for the year. A special folder on dress will be sent on request.

LECTURES AND ENTERTAINMENTS

The presence in Nashville of great universities and professional schools insures the coming of famous lecturers and entertainers. Lectures on a great variety of subjects, free to the student body, are delivered during the year by men and women who are experts on the themes they treat. Artists of international reputation are frequently brought to the city by Ward-Belmont and other organizations. In the past Ward-Belmont students have heard the following, among other notable people:

EXCURSIONS

Nashville has an interesting historical and geographical setting. Every year our pupils are given opportunities to visit the historical places of interest in or near Nashville. It has been the custom to take a yearly trip to Washington and to visit en route Lookout Mountain, Natural Bridge, Luray Caverns, and Norfolk. Such a trip will be offered in 1923. In accordance with the custom of many years, we have a large school party spending the summer vacation in Europe under the chaperonage of four of our Ward-Belmont teachers. A similar European party will be organized for 1923.

MUSIC, ART, AND EXPRESSION

In the education of girls and young women, it is important that a proper balance be maintained between Literary subjects and the Fine Arts. In this way only can a woman be prepared best for her mission in the world. The work of the school in the Liberal Arts is of the highest order, and equal emphasis is placed on Music, Art, and Expression in all their branches. Frequent music recitals of the highest order tend to develop an appreciation for that which is best in this rich field. Students are always made welcome to the Art studios, and special exhibitions are given to cultivate a love for the beautiful in color and form. In the School of Expression class recitals at frequent intervals afford

splendid opportunity for development to the participants and to the school at large an excellent means of culture. Attractive studios and an inspiring environment make the work of these departments a genuine delight. The teachers represent the best culture and training of this country and Europe. They have established an enviable reputation for Ward-Belmont as one of the distinct centers for the training of young women in these subjects so important in the development of æsthetic taste and temperament.

HOME ECONOMICS

The lifting of the home maker's work to its proper place among the sciences is perhaps one of the most significant recent educational reforms. Domestic Science and Domestic Art are now regarded as essential in a well-rounded education for women. Responding to this progressive movement, Ward-Belmont maintains a thorough department for the study of the home and its varied problems. A weekly lesson in Household Decoration is offered to all boarding students without extra charge. With its comprehensive courses, its attractive and well-equipped laboratories, and with its able corps of teachers, this department of practical worth holds an established place among the most popular activities of the school.

SECRETARIAL AND BUSINESS COURSES

To meet still further the unusual needs of the present time, Ward-Belmont is offering special courses in Stenography, Typewriting, Bookkeeping, and Secretarial work, thus giving a thorough insight into the practical fundamentals of business.

There is a growing realization that in the future women must be prepared, not only to conduct the business affairs of the home, but also to share in the leadership of civic affairs, and in many cases to fill positions of executive responsibility or to manage their own estates.

PHYSICAL CULTURE AND PLAYGROUND SUPERVISION

Thorough courses are offered in Physical Education and in Playground Supervision, subjects which are being emphasized today as never before in education. The campus af-

fords opportunity for outdoor games, the gymnasium is so equipped that exercise may be adapted to the individual needs of the pupil, and the swimming pool is modern at every point and free to all resident students. Trained teachers are in charge of every feature of this department. The work in Playground Supervision is so planned that the students enjoy the recreation, and at the same time grasp the methods by which directed play may be made to promote health, stimulate the intellect, and lift the moral tone of any community.

GYMNASIUM

The erection of a new gymnasium building, commodious and with every modern improvement, to be devoted entirely to the work of the Department of Physical Education, is being planned under the auspices of the Ward-Belmont Athletic Association. This building will be ready for use in 1922.

COURSE OF STUDY IN LIBERAL ARTS

Ward-Belmont offers a six-year Classical Course, corresponding to the four years of a preparatory school and the Freshman and Sophomore years of a standard four-year college. A student who contemplates entering a certain college or university after the completion of the Classical Course should advise the Dean in advance, that the subjects which she takes in Ward-Belmont may be those required by that institution.

The General Course, of equal length, is provided for the larger number who do not intend to do further college work after graduation from Ward-Belmont. In this course more liberty in choice of subjects is allowed. With certain limitations, Music, Art, Expression, and Home Economics may be included and counted toward graduation.

At the end of the first four years of the course, corresponding to the high school period, students may receive the High School Certificate, provided the proper balance has been maintained by the completion of courses prescribed. Those earning this Certificate can ordinarily complete requirements for a Ward-Belmont Junior College diploma in two additional years; or they may be admitted without examination to the leading colleges and universities which

admit students on certificates, provided in each case the peculiar entrance requirements of the institution considered have been met.

ADVICE ON CHOICE OF SUBJECTS

It is our desire that the courses of study be clearly understood by parents and prospective pupils. Again, it is important that each pupil's course be carefully planned on the basis of work already completed, and that individual tastes and aims be taken into account. To accomplish these ends, correspondence and personal conference with the Dean are cordially invited. Prospective patrons are urged to coöperate with us in working out a course of study in advance of the opening days of the session in order to allow more deliberate consideration of individual needs. Plans so made can be modified, if it seems desirable to a patron, on the opening days of school; but further changes during the year are usually not allowed. Continuity of effort and the greatest advancement can in this way be secured.

APPLICATION FOR ENROLLMENT

For several years past every place in the school has been taken some weeks in advance of the opening, there has been a long waiting list, and many who desired admission have been disappointed. Therefore, we advise early application. This application should be made on the school's special blank, which calls for references, and must be accompanied by a physician's certificate as to the health of the applicant. These forms will be sent on request, and no student can be definitely enrolled until they are properly filled out, submitted to the Registrar with the enrollment fee of $25.00, and formally accepted.

Those who present credentials from approved College Preparatory Schools, High Schools, or Colleges may be admitted without examination, on probation, to the classes for which their former work seems to have prepared them.

POINTS AND HOURS

Definition.—Preparatory credit is measured in *points* and college credit in *hours.*

A *point* is equivalent to a Carnegie unit and represents four recitation periods of one hour each, or five periods of forty-five minutes each, per week for a year, in a subject ordinarily taught in standard high schools, each recitation requiring preparation. Similarly one-half point represents approximately two hours of recitation per week for a year or four hours per week for one semester.

An *hour* represents one hour of recitation or lecture per week for a year, or two hours per week for one semester in a college course.

For preparatory or college credit two or more hours of laboratory work correspond to one hour of lecture or recitation, depending upon the nature of the laboratory work.

In Music, two lessons a week for a year, one and one-half hours' daily practice, and two recitations per week in a musical science, merit one *point* or three *hours,* according to the recommendation of the teacher. In Art, eight hours of supervised studio work per week merit one *point* or three *hours,* according to the recommendation of the teacher. In Expression, four hours of prepared class work and other collateral and assembly work merit one *point* or three *hours,* according to the course taken.

Number Recommended.—The number of points recommended as a year's work for the average preparatory stu-

dent is four; the minimum allowed is three, and the maximum five. For the average college student a maximum of fifteen hours of literary work is recommended.

Language.—A single preparatory year in a foreign language is given no credit unless it is followed by a second year of work in the same language.

Special Subjects.—Not more than a total of three points and nine hours may be counted toward a diploma for work in the Departments of Music, Art, Expression and Home Economics. Credit is not allowed for such work completed below third year high school. Work in Music, Art and Expression, completed elsewhere, will be credited toward a certificate or diploma in these special departments; but such work will not be credited in an academic course.

Excess Preparatory Credits.—College credit will not be allowed for a high school course in excess of those required for college entrance, unless sufficient supplementary work is done in Ward-Belmont to make it equal to the corresponding College Course.

Residence Requirement.—For a certificate in the preparatory or special departments at least one full year's work must be completed in Ward-Belmont.

For a diploma in the college or special departments at least one full year's work must be completed in Ward-Belmont. To receive credit for advanced standing, the student must present to the Dean proper credentials from an approved institution of junior or standard college grade. The college credit given will then be determined, in no case to exceed fifteen session hours.

CLASSIFICATION

The work completed at the beginning of a school year determines the class to which a student belongs. Four completed points, as found in either of the two courses outlined, give Sophomore classification; eight such points, Junior; and twelve, Junior Middle. If a student lacks not more than one of the required number of points, she will be given conditional classification.

For Senior Middle or college standing, fifteen completed points in one of the courses outlined are necessary. Of these fifteen points, at least three must be for English (usual college entrance requirements), one for Algebra, one for Plane Geometry, two for a Foreign Language, and one for either a History or a Science. Completion of a regular course of a standard four-year high school will ordinarily meet these conditions. Conditioned college standing will be allowed on fourteen of the above points.

For entrance to the Senior Class, the attainment of a Ward-Belmont Diploma at the end of the school year must be possible.

Not more than three points will be allowed for work in such subjects as Music, Art, Expression, Home Economics, Stenography, Typewriting.

II. SCHOOL OF EXPRESSION

This department offers to the special and general student an opportunity for thorough and scientific training in Expression. Its aims are: To help the student to "find herself" and to realize her powers and possibilities; to give such training as will develop her individuality; to train the voice and body to act in coördination with the mind; to teach the student how to think sanely and strongly, how to read intelligibly and effectively; to teach her to represent a character without effort; to prepare young women for effective work as readers and teachers of Expression.

A weekly class lesson in Public Speaking is offered to all boarding students without extra charge.

The work of this department is arranged below to cover four years. The Special Certificate in the School of Expression is awarded to those who complete satisfactorily the first two years of the prescribed course, and the Diploma is awarded to those who complete satisfactorily the first three years of the course.

Expression C is designed for students interested in advanced creative and interpretative work, methods of teaching, platform art, and pageantry. Diploma pupils will be given advantage of as much of this training as their time and advancement will allow.

III. SCHOOL OF ART

The creative power, which, in a greater or less degree, is the possession of every human soul, should be recognized and cultivated, and that appreciation developed which is the beginning of all growth of Art. The study of Art involves the training of the eye, mind, and hand, and that exercise

of both skill and judgment which makes for power in an individual and creates efficiency, no matter what the calling may be. Thus understood, the study of Art should have a place in every liberal education. The Ward-Belmont studios are in the new Administration and Academic Building, and embrace five large rooms with excellent light. Students of college advancement, specializing in Art, are seriously advised to elect History and Appreciation of Art as one of their literary subjects. In every branch of the School of Art the object is to make the pupil proficient and to give her a foundation upon which she can build. The methods of instruction are varied, and are such as have been found to be the most efficient in developing the possibilities of each student, and in giving her the means of artistic self-expression. The student is taught to use and develop her innate ability; she is taught to recognize ideas and to evolve them, to see facts, and to express them according to principles as well as to feelings. Stress is laid on the fact that intellect is more essential than sentiment in art expression.

I. Costume Design.—The work in Costume Design is planned to give the student a knowledge of the application of the principles of design to clothes. Every woman not only wishes to be but should be appropriately dressed. If she thoroughly understands line, color, and value, she will be able to use what she has to the best advantage. The work in this course is in two parts: (1) the designing of clothes and (2) the preparation of these designs for reproduction in magazines.

II. Interior Decoration.—The work in interior decoration is designed to meet the needs of those who wish to plan their houses conveniently, decorate them with suitable colors, and select and arrange the furniture artistically and usefully. The principles of mechanical drawing, the theory of color, and periods in furnishing are studied. The pupils work out various problems in the arrangement and decoration of rooms.

III. Poster Advertising.—One of the most useful branches of modern art is that of Poster Advertising. It embodies not only some knowledge of psychology but also thorough familiarity with design and color. Poster Advertising is closely related to other forms of art expression. At present posters are a widely used medium of communication between the government and the people; at all times poster advertising is essential to business. The student is taught to weigh the value of various ideas and to express the chosen idea in an effective and pleasing manner.

IV. Outdoor Sketching.—The campus offers ample opportunities for outdoor sketching. Application is made of the principles of composition, values, perspective, and color.

V. Textile Designs.—There is an ever-increasing demand in America for good textile designs, and the making of these designs is not only an interesting but a very profitable side of art work. The course includes a study of the various kinds of repeats and their application to silk, cotton, and woolen fabrics.

VI. Life Drawing.—The costumed model is used in the life drawing class. After becoming familiar with their materials, students are encouraged to begin work in this most interesting branch of Representative Art. The models are posed to help the pupils in the study of both composition and illustrations.

IV. SCHOOL OF MUSIC

The Ward-Belmont School of Music possesses the combined virtues of the Belmont School of Music and the Ward Conservatory, both of which had long been the objects of the high praise and the generous patronage of educated musicians both in and out of Nashville. It is more than a complete modern Conservatory of Music; it offers to music students what all of them need—supplementary work in English, Literature, and the Modern Languages. The "mere musician," the talented player or singer who lacks general education, will be tomorrow more than ever before at a disadvantage, and will be regarded as just so much less a musician. The best musical educators are agreed that general mental discipline should not precede, but should continuously accompany, musical studies; and schools of music are seeking what we have already at hand—intimate affiliation with literary classroom work. Under our system, musical study and practice are not allowed to suffer or be crowded out, but the student is shown how she may become both a cultured woman and a thorough musician. Our musical faculty is now probably the largest and most expensively maintained one in any school for girls in America. No teacher is chosen who has not had the best of advantages, most of them in both this country and Europe, teachers who have supplemented graduation from the leading conservatories with years of special study under the recognized masters of two continents. All of them are tested teachers. Piano, Voice, Violin and certain other stringed instruments; Pipe Organ, Theory, Harmony, Composition, History and Appreciation of Music, Interpretation, Ear Training, Sight Reading and Chorus, Ensemble and Orchestral Work, Repertoire and Memorizing, and Faculty, Student and

Artist Recitals—all, and more, take their appropriate places and contribute to the creation of a wholesome and inspiring musical atmosphere. Such an atmosphere is possible nowhere except in a large school where musical education is seriously undertaken by a faculty composed of tested professional musical educators. Frequent student recitals are given, as are recitals and lectures by the faculty and other eminent musicians. Pupils may attend the best concerts in the city. Operas are frequently given by excellent companies, and the world's greatest artists appear in Nashville from time to time. The immediate and convenient value of these advantages at our own door will be the more apparent when it is known that our students may have throughout the season the great musical entertainments, but a very few of which other Southern schools can enjoy, and these only by means of travel and additional expense from the smaller towns into the city. Certificates and diplomas are conferred for finished work in this School.

Eighty new pianos, including eight Steinway Grands and a Steinway Duo-Art Pianola, have been purchased within the last few years.

Instruction is not offered in Mandolin, Banjo or Guitar.

Boarding students specializing in Music, Art, Expression, or Home Economics are required to take at least one literary course.

Theory is required of all music students in the boarding department who have not previously completed the equivalent of Theory I. Credit for Theory I, if taken elsewhere, will be granted only on the basis of an examination. Those who have such credit will be assigned one of the following: Theory II, Harmony, Counterpoint, History and Appreciation of Music, Ear Training.

DESCRIPTION OF THEORETICAL AND HISTORICAL COURSES

THEORY (MUSICAL ESSENTIALS)

Course I.—In order to provide fitting instruction in the first essentials of music for beginners, or pupils who have pursued musical instruction but for a short time, a special theory class is organized in which the necessary rudimentary knowledge may be acquired. The pupil is taught the rudiments of music by keyboard and blackboard work, which supplements the music lesson and greatly aids and stimulates progress. A thorough knowledge of the material covered will be found of invaluable aid in many practical ways—stimulating the pupil's progress and furnishing a musical foundation, without which advancement in the acquiring of a musical education is impossible. Training is given in Notation, Signs, Scale Formation, Keys, Meter, Rhythm, Intervals, Terms, etc., the aim being to familiarize the pupil

with the essentials of musical knowledge. Text: Tapper's First Year Theory.

Two half hour periods per week.

Course II.—This course is a continuation of the first course in elementary theory. It is open, however, to more mature music students who have had no previous theory work. The work consists of material from text, music writing, dictation, ear training. The subjects include Notation, Symbols, Meter, Scales, Keys, Intervals, Chords, Terms, Elements of Form, Embellishments, Abbreviations, the orchestral instruments, etc. Text: Marvott's Essentials of Music.

Two half hour periods per week.

EAR TRAINING AND SOLFEGGIO

Discriminative hearing is indispensable to a musical education, and must precede or accompany all lines of music study. The aim of this course is to teach the pupil to think in tones and to so train the ear and the musical feeling that one may learn to sing, name, write, and play what is heard; and to recognize and appreciate not only the melodic effects of music, but the harmonic and rhythmic also. No other branch of music study will be found so helpful in the acquiring of proficiency in reading and hearing music as that of ear training. Sight singing accompanies the work throughout the year. Beginning with simple intervals and phrases, the solfeggio work progresses by easy stages until difficult passages can be read with fluency.

Course I.—Rudiments. Notations. Recognition by ear of the diatonic intervals of the Major and Minor scale. Solfeggio exercises in simple notation and rhythms; dictation exercises; simple meters and rhythmic units; melodies in Major and Minor chromatic intervals; Major and Minor Triads; simple modulation; exercises and songs in one and two parts.

Two half hour periods per week.

Course II.—Review of intervals. Recognition by ear of Major and Minor Triads and their inversions; dominant and diminished Seventh Chords; dictation exercises; melodies involving chromatics and modulations; compound meters, complex rhythmic patterns and syncopations. HISTORY AND APPRECIATION OF MUSIC

Course I.—This is a general survey of the evolution of music from earliest times to the end of the nineteenth century, with emphasis upon the composers of the classic period, offering invaluable aid to musical understanding and appreciation. The work consists largely of lectures, supplemented by material from text, collateral reading, notebook work. The following subdivisions are considered: Pre-Christian Music; the Christian Era to the Contrapuntal Schools; from Lasso and Palestrina to Handel and Bach; the Contrapuntal, Classical, Romantic Schools of Composition. Numerous illustrations are given in the classroom by means of sound-reproducing mechanisms. Lectures upon the following subjects are also included: "How to Listen to Music," "The Sonata Form," "The Symphony Orchestra," "The String Quartet." Text: Hamilton's Outlines of Music History.

Open to students above the Sophomore year. Two hours a week.

Course II.—This is a continuation of the first-year course. During the first half of the year a more extended and critical survey of the music by the great masters of the nineteenth century is made, and the tendencies of present-day musical art are considered at length. During the second half of the year special emphasis is placed upon a more elaborate study of the Opera and the modern schools of composition. In addition to a critical and biographical study, the works of the composers are considered, as regards their methods of construction. Programs of visiting artists are studied, and the subject of musical aesthetics is considered. Illustrations are afforded by means of the Victrola and the Duo-Art Pianola.

Open to students who have completed the first course, and by permission to any advanced music student. Two hours a week.

Course A.—This is a course in Musical Appreciation dealing with the music of the great masters from the time of Bach to the present, based upon a study of form and content. It is designed to enable the general student to understand and enjoy the highest types of musical literature through a knowledge of the aesthetic and psychologic principles involved in their development. Especial emphasis is placed upon the composers and periods that affect present-day musical life. The work is given by means of lectures, material from text, collateral reading, reports and digests of assigned topics. The programs of

visiting artists are studied. Abundant illustrations are given by means of the Steinway Duo-Art Pianola and the Victrola.

Open to college students. No Music prerequisites. Three hours a week.

VI. PHYSICAL EDUCATION

The building of the body, its training for both utility and grace, and its protection from disease and weakness, make the department of Physical Education one of the greatest importance. The gymnasium, the swimming pool, and tennis courts, the basketball, hockey and athletic fields provide ample equipment for conducting this important work. The swimming pool, twenty-three by fifty feet, is constructed of white tile, and equipped in most modern fashion for convenience and sanitation. Physical training is given free of charge to boarding students, and is required of them for at least two periods a week in every year. A physical examination is given each boarding student at the beginning of the session, and a record is kept of the condition of the individual. From this record each student is advised as to when to take exercise, and the kind and amount best suited to her needs. All work is done under expert supervision.

The work of this school includes the various phases of Physical Education. Practical gymnastics, gymnastic games, folk dances and games, and fencing form an important part of the indoor work. The value of aesthetic dancing as a means of acquiring grace and bodily poise has been recognized of late years. Another and very important branch embraces practical work in outdoor games, basketball, hockey, and field sports. Because of the greater hygienic value of outdoor exercise, fully two-thirds of the work is done in the open. Throughout the department the exercises are suited to the precise needs of the individual pupil, and the constant aim is to bring each girl nearer the physical ideal.

The work consists of gymnastics, folk dancing, swimming, athletics and athletic games, for which there is no charge; and of aesthetic dancing and fencing, for which a charge is made. Every board-

ing pupil must spend two periods a week in physical training; one in gymnastics, the other elective. Each morning that the weather permits twenty minutes outdoor exercise is required. At least six class lessons in swimming are required of all students who have not learned to swim. Eight hour periods of lecture work in personal hygiene are required for completion of physical education work. Special reading in this course is required of the first year physical education students.

No course will be considered completed by any student nor may she be graduated from any department until the required work in Physical Education shall have been completed for each year of her attendance. In case of physical disability, the work will be adapted to the needs and capabilities of the student.

PLAYGROUND SUPERVISION

An awakened conscience relative to child welfare and a realization of the social and economic value of wholesome recreation for both young people and adults has made the playground movement one of national importance. The demand for trained workers, both voluntary and paid, in this field greatly exceeds the supply, and makes the course one of great practical value. The course embraces the History and Scope of the Playground Movement, Playground Organization, Administration and Conduct, and the Nature and Function of Play. The practical work includes Plain Sewing, Raffia Weaving, and Story-Telling; normal instruction in Folk Dances and Games; Gymnastic and Athletic Games; Athletics and Swimming.

Open to college students. Two periods a week. Credit, two hours.

TWO YEAR NORMAL COURSE

In addition to the work outlined above, a two-years' course is offered to those who wish to specialize in Physical Education, upon the completion of which a Physical Education diploma is awarded. It is open to college students only, fifteen High School points being prerequisite. The course each year amounts to thirteen hours of recitation or lecture, and a minimum of six hours per week in practical work. For the latter, two hours of credit are allowed, making a total of fifteen hours per year.

VII. BUSINESS AND SECRETARIAL COURSE

Requests have come for an opportunity to secure in Ward-Belmont environment training to fill clerical positions requiring a knowledge of stenography, typewriting, bookkeeping, and business methods, and secretarial positions based on skill in stenography, typewriting, and good English. To meet this need a two year course has been planned, open to High School graduates or in exceptional cases to fourth year High School students. The completion of this course will entitle the students to a certificate.

Parents or guardians who register students accept all the conditions in this catalogue.

A student who is found to be out of sympathy with the spirit and ideals of the school may be asked to withdraw even though she may not have broken any formal rules.

No Ward-Belmont student may sell or give articles of clothing to the maids without the knowledge and consent of her hostess.

Rooms in the boarding department are assigned in the order of application, and early registration is advised. Every room in the residence halls was taken last year ten weeks in advance of the opening.

With the exception of a few single rooms, which may be had at extra cost, each bedroom is for two girls, and is furnished with single beds, separate closets, and other usual comforts.

Windows and doors of residence halls fitted with metal weather strips and copper screens, thus protecting against winter cold and summer insect annoyance.

Boarding pupils are not allowed to visit in the city, except with the approval of parents and the school management. Permission is not granted to spend the night in the city, except with parents or in the home of near relatives. Such permission will not be granted more frequently than one week-end in a month.

No guest may be taken to the dining room without first having registered in the office of the Home Department. No charge will be made for meals for guests remaining only one day. For a longer stay a charge for meals of $2.00 a day, or 75 cents a meal, will be made, but arrangements can be made only for a limited time. No rooms in the school are available for guests.

Ward-Belmont does not lend money to students. Drafts made by students are honored by us only in cases of emergency or upon the written request from parents or guardians.

Student body of 1920-1921 represents the best homes in thirty-seven States, the District of Columbia, Central America, Costa Rica, Cuba, and Panama, thus affording the broadening educational advantage of a nation-wide acquaintanceship.

Practically every State north of the Ohio from New York to Oregon is represented in Ward-Belmont. Climatic conditions and educational opportunities are such that nearly one-third of our student body now comes from the North.

Boarding students are under school regulations from the moment of their arrival in Nashville until their departure from the city. Parents should not, without conferring with the school, grant social or other permissions in the city before the student enters or after she leaves school.

A modern infirmary in the main building is maintained under professional supervision, and pupils who are too ill to meet school appointments are cared for here instead of in their bedrooms. A remotely isolated hospital is also maintained on the grounds for use in case of need.

School work missed because of absence must be made up to the teacher's satisfaction; otherwise credit cannot be given for the course. Ordinarily a tutor can be provided at $1.00 to $1.50 per hour. Tests or examinations not taken at the appointed time must be taken later, and a charge of $2.00 each will be made. Tutoring in preparatory

subjects must be tested at Ward-Belmont. Tutoring is not accepted in lieu of college work.

All permissions of parents or guardians should be written and addressed to the management and are subject to the approval of the management. Even during the visits of parents pupils are still subject to the rules of the school, and must meet all regular classroom or studio appointments.

The school bank, with its system of pass books, deposit slips, checks, and monthly balance reports, not only cares for the spending money of students, but teaches them how to keep a bank account, draw checks, and conduct their own financial affairs. We are not responsible for money or valuables not deposited in our vaults.

Each residence hall is in the charge of a hostess who is always accessible for counsel, and who devotes her entire time to the training of the girls of her household in such questions as appropriateness and simplicity in dress, neatness and order in the bedrooms. In a word, these hostesses undertake to perform the office of the refined mother in a Christian home.

Students are not permitted to bring food or canned goods with them, and parents are requested not to send them to their daughters.

The school is equipped with the Bell Company's private telephone exchange connecting with the Bell Company's long distance board and pupils may have long distance conversation with their parents in practically every important city in the United States. After 8:30 p. m. until midnight the "station to station" rate for three-minute conversations is approximately fifty per cent of the day rate, and arrangements can be made for the students to call their parents at home. A circular letter setting forth the matter in detail will be sent to all interested parents.

Parents and guardians are requested to coöperate with the school in securing full and regular attendance, especially at the beginning and end of the school year, and just before and just after the Christmas holidays. Much educational value attaches to the commencement season, and no student should miss any part of it. The school year ends at noon, Thursday, June 1, and all students have obligations to this hour. Students who leave earlier, or who do not keep appointments throughout the closing days, will thus fail to earn full credit for the work of the last quarter.

The following thirty-four states, the District of Columbia, Canada, Central America, Cuba, and the Philippine Islands were represented during the past year in Ward-Belmont: Alabama, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Virginia, Washington, West Virginia, Wisconsin.

Concerning Charges and Terms

In what follows we have named the lowest terms consistent with the accommodation, equipment, and high quality of teaching furnished. We are prepared to prove to the satisfaction of the discriminating that, compared with schools offering similar advantages, Ward-Belmont is not an expensive school. The charges are for the whole school year, and reductions cannot be made if the student for any reason, except the long illness of the girl herself, is withdrawn during the year. As Ward-Belmont's rooms are much in demand before the opening, and as applicants who would take the rooms for the whole year are often crowded out by previous applicants, it is neither ethically nor legally right for an earlier successful applicant to withdraw and expect the return of fees paid or due. Hence, in accordance with the uniform custom of other reputable schools, pupils are received for the entire session or part of session unexpired at time of entrance. No reduction will be made for absence immediately preceding or following the Christmas vacation or during the first four or last six weeks of the term; nor will reduction be made for absence during other periods, unless the student is absent on account of her own illness and for at least five weeks, when we shall divide equally with the patron the loss for the enforced absence.

Ward-Belmont has no confidential terms, and no one is authorized to negotiate with prospective patrons except upon the figures and terms named in this Catalogue.

EXPENSES AT WARD-BELMONT, NASHVILLE, TENN.

The school year consists of one term. The next session will begin September 19, 1923, and end May 30, 1924, with a *Christmas vacation of approximately two weeks, and the charges here named are for the whole school year. The year's expenses are payable in two installments, in September and January, respectively, as stated below. The September or entrance installment pays the charge to January 1; the January installment pays it to the end of the session.

*The school buildings may be closed during the Christmas vacation, but provision is made for the board and care of pupils during this period at $18 a week.

An advance registration fee of $25 should be forwarded with the application, which amount will be credited as a prepayment on the school account, but is not subject to return. (See page 24.)

Board, room, with bath on hall, tuition in two or more subjects in the Literary Department (including Latin, French, German, Spanish), Physical Training, Athletics, Swimming, weekly class training in Bookkeeping, weekly class demonstrations in Interior Decoration, use of Library, two girls in a room, each occupant.....$750.00

Payable $500 on entrance, balance on January 1.

†Single rooms in suites of two with connecting bath are available for one occupant each at $950 for board and literary tuition, of which $650 is payable on entrance.

A few single rooms with bath on hall are available at $800 and $850.

Students who take work in two or more extras (the equivalent of at least two points or six hours credit—see page 38), and cannot find time in addition for more than the one required Literary subject, will be credited with $75 on either of the above-mentioned sums for "board, etc."

Clergymen in active ministerial work are allowed a discount of one hundred dollars on the regular course and twenty per cent on extras.

THE OTHER FEES REQUIRED

‡Star Entertainment Course	$ 9.00	$55.00
Infirmary fee, simple medicines and nurse's attention (except when a special attendant is necessary)	6.00

---

†These single rooms, when occupied each by two girls, may be had at $800 for each occupant, of which $525 is due on entrance.

‡In addition to the several really great concerts and lectures which may be heard in Nashville during the year, Ward-Belmont will present to its students during the session ten or more entertainments at a cost of $5,000 to $8,000, embracing some of the best in Music, Art, Expression, and Literature. This small fee will enable the students to hear these entertainments at a rate much lower than if they paid for individual tickets.

Each of the above-named fees for board and tuition includes Physical Training, so necessary to health, and the modern languages—French, German, and Spanish—all of which, in practically all schools, are charged for as "extras." Swimming is also included without extra cost, as are weekly class lessons in Interior Decorations, and in Bookkeeping—valuable additions to the Ward-Belmont general curriculum. Our purpose is to reduce the number of "extras" by including in the curriculum without extra charge subjects usually required for graduation and many beneficial to all students. It is thus evident to one considering these features and the vast additions made to equipment and Faculty during the last few years that the charge for boarding students is remarkably reasonable. It is the policy of Ward-Belmont to include in the regular charge abundant provision for health in physical culture, every literary requirement for graduation, and the essentials for a broad culture. The charges listed below under "Extras" are made for those who wish to specialize in the subjects named or to supplement their work along those lines.
